

# THE 4REVALUE GMBH

Stands for:

**REDUCTION** of the number of animals used to repeat standardized testing of pure substances by offering a practical solution to the “one substance one assessment” approach.

**REPLACEMENT** of animal tests by buying or selling already existing test results: as anonymous as possible and as transparent as necessary.

**REFINEMENT** of animal tests and recording of test results so that data can be better reused.

**REUSE** of standardized animal tests results by buying or selling them to other companies. **Ask for regulatory exposés of available data sets for sale!**

We **value** animals and **value** your test results.

Let's start to **value** work that was already successfully accomplished.
